MOHAWK
CARPET MILLS, Inc.

A Fact or Two to Remember

IN PRESENTING ITS CATALOGUE of rug and carpet fabrics for 1929, the Mohawk Carpet Mills wishes to point out certain facts which the Company believes should be recognized—in the interests of the Trade itself.

This year's catalogue is the fullest in quantity and variety of patterns and colors, as well as in sizes offered, that the Mills has ever been privileged to show. Moreover, these patterns and colorings, both traditional and modern, are unquestionably the best that have come from the looms of Mohawk. Many have already been portrayed in Mohawk's national advertising. They are therefore already known to the consuming public. The fabrics in this catalogue have been sifted through the colander of public taste. It is merchandise proved by the Trade and approved by the public.

Buyers need not be reminded that the Mohawk Carpet Mills is the *only* rug and carpet manufacturer in America producing every accepted modern weave—Chenille, Wilton, Axminster, Velvet and Tapestry—each in many grades to suit every purse and purpose.

Nor do buyers need to be reminded of the economic advantages to them of concentrating their purchases upon the fabrics of the Mohawk Carpet Mills. These advantages include an assured turnover; a sustained mark-up; a uniform excellence of design, coloring and quality of weave; stabilized prices, full stocks and prompt deliveries. Because of its unique position in the industry, such *concentrated* purchase is usually possible from Mohawk and from Mohawk alone.

Finally, in assuming on November first the management of its own sales and the direction of its own marketing policies, Mohawk opened the most modern and appropriate showrooms in the entire industry for the effective display of rugs and carpets. They are handily located in the Textile Building, at 295 Fifth Avenue, New York.

At the same time the Mills established regional sales offices in all the important trade centers of America. Thus blanketing the country, Mohawk is prepared to fulfill most efficiently your needs and the needs of your customers. Through this arrangement, buyers and consumers alike are brought far closer to the source of supply.

In the light of these important facts Buyers are invited to study the Mohawk line for 1929 as shown on the pages which follow.
